

Let us be your **first stop**<sup>1st</sup> in staying Covid-19 secure.

Follow HM Government guidelines on hand hygiene, cleaning and social distancing procedures and provide a safe environment for staff and customers.

**Evans Hand Sanitiser**

Use signs and posters to promote good hand hygiene. Provide hand sanitiser in multiple locations including entry and exit points in addition to hand wash facilities. The cleaner your hands, the lower your chance of catching and spreading the virus.

- Quick acting and highly effective 70% alcohol based hand sanitiser. Kills bacteria and enveloped viruses. Rapidly evaporates from hands.
- Available in 5 litre, 500ml or 75ml.

Download our free guides to hand washing and using sanitiser . Available on our website [www.firststopsupplies.co.uk](http://www.firststopsupplies.co.uk)

**Evans Hand Soap**

A range of contemporary fresh perfumed or unperfumed liquid hand wash that removes visible soiling and simultaneously kills a wide range of bacteria. Ideal for all washrooms. Available in 5 litre and 500ml.

**Face Masks**

The European Centre for Disease Prevention and Control says non-surgical face masks might help stop the spread of coronavirus.

- Latex Free elasticated loops.
  - Packs of 50.
- Protection for your staff.

From **0.60p** per mask

Research has shown Coronavirus is able to survive on surfaces, e.g. wood, plastic, glass and cardboard, from between 24 hours and 9 days (dependent on conditions e.g. temperature and humidity). Regular and effective cleaning and disinfection is crucial in the control of the virus.

**Safe Zone Plus is a virucidal disinfectant.**

- Effective against Covid-19, unperfumed multi surface Virucidal disinfectant cleaner for use in all frequently touched areas.
- Packed in 5 litre and 6x750ml sprays, ready to use on all surfaces including equipment, kitchen and washroom surfaces.
