

Butterfly Cups - Triple Wall, Recyclable Hot Cups Available from **first stop**

The **BUTTERFLY CUP** is made from natural paperboard using water based dispersion. This means the paper is not laminated and therefore plastic free. The **BUTTERFLY CUP** can be recycled with regular paperboard as it biodegrades naturally leaving no microplastic residue. The paper itself is produced from FSC certified forests.

The **BUTTERFLY CUP** completes the circular economy loop by being easy to recycle, re-pulp and reuse. The **BUTTERFLY CUP** is easy to use and prevents splashes and leaks. By eliminating lids and straws it also reduces storage and waste disposable volumes.
