# DISPENSERS

2011

*Seeing a gap in the market, we developed an extensive range of cup and lid dispensers which can be hidden away in counters to keep work areas clear and cups out of the way. Today we are helping to recycle the single use cups, with products such as the disposable cup drying rack.*

## BONZER® IN-COUNTER DISPENSERS CUP & LID

The Bonzer® Elevator Cup & Lid Dispenser range makes the most of any counter, providing a low profile, space-saving and easily fitted solution which keeps your cups hygienically encased whilst still allowing easy access for quick service.

- ✓ 2 lengths
- ✓ 2 material choices
- ✓ On-counter, in-counter and wall mounted solutions
- ✓ Bespoke options available

## 7 GASKET SIZES

Bonzer® gaskets are made from food grade silicone designed to withstand daily usage. The cup diameters range from an espresso cup up to cinema sized cups, with all the standard sizes in-between. The measurement tool below is to scale, by placing your cup on the page you can determine the best gasket fit for your cup dispensing solution.

### MADE IN THE UK

Bonzer® Dispensers are made in the UK at Mitchell & Cooper's factory in East Sussex.

### NSF CERTIFIED

Bonzer® Dispensers are certified Hygienic by NSF.

### WARRANTY

2 year warranty on all parts (excluding gasket).

DISPENSERS: IN-COUNTER DISPENSERS

# DISPOSABLE CUP DRYING RACK

There are many obstacles for recycling disposable coffee cups, which are seen coming out of high street coffee shops in their millions every day.

- Plastic contained within the cup.
- Lack of cup recycling plants .
- Dirty cups entering the recycling.

One that we can help overcome is recycling dirty cups contaminates end product. Therefore cups need to be rinsed clean before going to be recycled.

Costa have installed the drying racks above there wash up stations, a quick rinse and pop in the rack to drain produces a far better product to recycle. They are also board member of the Paper Cup and Recycling Recovery Group.
