

**CHOOSE
TO RE-USE**

Each year over 300 billion single-use cups are manufactured globally. Due to their plastic content 99% will never be recycled. Most will end up in landfill or, worse still, in our waterways and oceans. Each time you choose to re-use, even just once a week, you will be helping in the fight against single-use waste. Imagine the massive difference we could make if everyone did the same. Light, bright and beautiful to drink from, with no metal or plastic after-taste, with Ecoffee Cup it's easy to Choose to Re-use every single day.

Together we Choose to Re-use.

The Ecoffee Cup Difference

- Re-use cuts daily consumer waste
- Four sizes, over 100 different designs
- Made with sustainable bamboo fibre
 - Renewable, fast growing material
 - Taste neutral
 - ISO9001 production facility
 - Valid SEDEX and BSCI audits
- LFGB, FDA, Japan food contact compliant
- Reusable over and over again
 - Resealable 'no-drip' lid
 - Fully dishwasher safe

"Have nothing in your house that you do not know to be useful, or believe to be beautiful"

William Morris is widely recognised as one of the most cultural figures of Victorian-era England. Artist, Master print maker, writer and social activist, he was associated with the British Arts and Crafts movement and contributed to the revival and preservation of traditional textile arts and production methods during the Industrial Revolution. He also held a deep respect for the environment and its preservation. Useful and beautiful, our collaboration with William Morris Gallery embodies all that he held true, making them true functional classics for our times.
