

# Welcome to the Spring First Stop Newsletter

*Spring 2019*

**first stop**  
catering + hygiene supplies ltd  
[www.firststopsupplies.co.uk](http://www.firststopsupplies.co.uk)

With the days getting longer, daffodils starting to flower and the sun making an appearance, Spring has certainly arrived here. Whether you are planning a spring clean, opening up after the winter season or just fancy a change, spring is the season of beginnings.

## The Recycling Revolution

Have you changed your plastic packaging to an alternative low impact recyclable/compostable packaging? Can your plastic waste be recycled? How are you going about collecting and disposing of your waste?

There are so many questions regarding the disposal of recyclable, compostable or general waste, where do you start?

We would recommend starting with a separated bin system so waste that can be recycled goes in to the right bin. It's always a good idea to check with your waste collection service about what they will collect.

The ReCup is a paper cup that is coated with Earthcoating<sup>®</sup>, which means they can be pulped into recycled paper using conventional paper recycling systems.

We can offer low minimum quantities, from as little as 1000 cups, using the highest colour quality litho printing, along with a design service and 3D preview.

The ReCup is available in both a gloss or matt finish or with foil embossing.

Contact us for a sample.
