

WELCOME TO THE UTOPIA ECO-RANGE

Innovation has always been at the core of Utopia's offering, and as we have seen and been part of the wave of the movement towards eco-friendly alternatives to single use items we saw a fit for what we can offer.

Straws and stirrers when in plastic were seen as a bland commodity, adding little value to the serve and even less to the environment, but with other materials there is the opportunity to differentiate and add value to the serve through the patterns, colour and variations that can be achieved.

Our range is focused on bringing the best product into the market, meeting all the environmental needs whilst giving our customers a way to create innovative serves through our extensive range of straws, skewers and stirrers.

2050

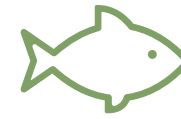

BY THE YEAR 2050, UNLESS WE ACT NOW THERE WILL BE MORE PLASTIC THAN FISH IN THE SEA.

Single-use plastics are a frivolous reason to add to the global pollution problem, we need to focus on improving the way we consume and serve to make it as environmentally friendly as possible.

The following facts are just some we need to look at as a reason to move to environmentally friendly options:

There are believed to be 46,000 pieces of plastic in every square mile of ocean.

Microparticles of plastics are being absorbed by fish that are then eaten by humans.

The amount of plastic waste generated globally is estimated to be nearly 6.3 billion tonnes.

Plastic can take up to 500 years to decompose.

Biodegradability, is a material's capacity to be converted into carbon dioxide (CO₂) through the action of microorganisms, under the same process occurring in natural waste.

- Disintegratability, namely fragmentation and invisibility in the final compost (absence of visual contamination).
- Absence of negative effects on the composting process.
- Almost complete absence of heavy metals and the absence of negative effects on compost quality

Compostability is the capacity of an organic material to be transformed into compost through the composting process. This process exploits the biodegradability of the initial organic materials to transform them into a finished product called compost. This allows for the waste to add back to the planet rather than detract from it.

ACTIONS WE HAVE TAKEN

For our paper and wood products, it is key that they are compostable, biodegradable and food safe, without this they are not fulfilling the need to be environmentally friendly and improve the position from single-use plastics. We rigorously test our products to make sure they adhere to these requirements.

For paper to be environmentally friendly it needs to adhere to the Forest Stewardship Council certification, which gives customers the option to choose forest products like paper and wood that have been sourced in an environmentally-friendly, socially responsible and economically viable manner. FSC was founded in 1993 in response to concerns about deforestation. All our wooden stirrers and paper straws all have been FSC sourced.

PRODUCT TESTING

We believe in testing all our products to our own as well as industry standards. This is to make sure our products are best in the market for how and why they are used.

Paper straws are tested against:

- Liquid absorption of different acidities and sugars
- Strength and diameter testing
- Durability with contact to varying liquids
- Ink leakage into liquid after set periods of time

We strive to make sure that our straws that enter the market match the level of quality we expect from all Utopia products.

ECO-PRODUCT RANGE

PAPER STRAWS

Solid White Straw
8" (20cm)
F90100
Box of 250

Solid Black Straw
8" (20cm)
F90101
Box of 250

Red Stripe Straw
8" (20cm)
F90108
Box of 250

Black Stripe Straw
8" (20cm)
F90109
Box of 250

Green Stripe Straw
8" (20cm)
F90110
Box of 250

Blue Stripe Straw
8" (20cm)
F90111
Box of 250

Bamboo Straw
8" (20cm)
F90112
Box of 250

Jumbo Red Stripe Straw
9" (23cm)
8mm Bore
F90126
Box of 250

Wrapped White Straw
8" (20cm)
F90127
Box of 250

Brown Solid Straw
8" (20cm)
F90125
Box of 250

Brown/Black Stripe Straw
8" (20cm)
F90119
Box of 250

Zebra Straw
8" (20cm)
F90128
Box of 250

Tropical Straw
8" (20cm)
F90129
Box of 250

Solid Gold Straw
8" (20cm)
F90102
Box of 250

Solid Silver Straw
8" (20cm)
F90103
Box of 250

Solid Copper Straw
8" (20cm)
F90104
Box of 250

Gold/Black Stripe Straw
8" (20cm)
F90116
Box of 250

Silver/Black Stripe Straw
8" (20cm)
F90117
Box of 250

A STYLE
FOR EVERY
SERVE

COCKTAIL PAPER STRAWS

Black Sip Straw
5.5" (14cm) 5mm
Bore
F90113
Box of 250

Gold Sip Straw
5.5" (14cm) 5mm
Bore
F90121
Box of 250

Silver Sip Straw
5.5" (14cm) 5mm
Bore
F90122
